

The Gap Year with a difference...

Menzies School of Health Research is the national leader in Indigenous health research. Menzies is looking for school leavers with an interest in health research who would like to spend their gap year performing exciting laboratory research, learning valuable research skills and engaging youth in science.

*2013 Gap Year
Placement's Chris Wevill
and Yuki Ruzsicska*

Meet Nerida, Chris, Yuki, Kathleen, Nelson, Cain and Rebecca

Former Darwin High School, Kormilda College, O'Loughlin Catholic College and Marrara Christian College students have joined Menzies in 2012, 2013 and 2014 for gap year placements.

They played an integral role in microbiological and clinical studies to help us better understand ear, lung and kidney disease.

What's involved?

Start your journey to become a research scientist by working with Menzies researchers. You could be working as a laboratory or a field researcher doing exciting and meaningful research.

You could also be engaging with Year 10-12 students through youth and science events, and school science projects, whilst undertaking a range of Certificate level courses.

This is a paid position through GTNT at Menzies which is located on the grounds of Royal Darwin Hospital.

To apply or get info

Information will be available on our website www.menzies.edu.au, or contact youth.engagement@menzies.edu.au on 8946 8413.

Aboriginal and Torres Strait Islander youth are strongly encouraged to apply.
