

Module 02

QUALITY IMPROVEMENT IN INDIGENOUS PRIMARY HEALTH CARE - ONE21SEVENTY

Optional task

Individual reflection or group discussion

If possible, arrange a group discussion with peers and colleagues who have completed the module.

1. Note features of the One21seventy CQI model that are likely to appeal to your workplace team.
2. List concerns colleagues might raise about using One21seventy CQI processes. Establish whether these potential concerns are addressed through the One21seventy model and processes, and explain how.

Tip: Your local CQI facilitator or professional development coordinator may be able to arrange or facilitate the group.
