

Module 03

ONE21SEVENTY CLINICAL AUDITS, SYSTEMS ASSESSMENTS AND REPORTS

Optional task

Individual reflection or group discussion

Scenario: You are asked to present information about One21seventy tools and processes to colleagues.

Prepare notes you would follow to:

- a) describe the range of data collection tools.
- b) explain why clinical indicator and service delivery data are collected and reported.
- c) explain how to read the data figures and tables in clinical audit reports (including systems assessment results).
- d) explain the reason for using a participatory process to interpret data in One21seventy reports and propose a practical way to schedule the process in your workplace.

If possible, present to colleagues in your workplace.
